

EMPLOYEE MANAGEMENT SYSTEM

Introduction: Every organization, whether big or small has human resource challenges to overcome. Every organization, has different employee management needs, therefore we design employee management system according to our requirements.

Flow Chart:

Features of Admin:

Can edit Employee Management

Can edit Profile

Can edit Leave Management

Can edit Apply Leaves

Can edit Salary Management

Can edit Payment Slip

Can edit Timesheet

Can view Timesheet

Features of Employee:

Can edit Profile

Can Apply for Leaves

Can view Payment Slip

Can view Timesheet

OBJECTIVES:

In this world of growing technologies everything has been computerized. With large number of work opportunities the Human workforce has increased. Thus there is a need of a system which can handle the data of such a large number of Employees. This project simplifies the task of maintaining records because of its user friendly nature.

Conclusion:

The aim of this project is to draw conclusions of the work done or achieved and to give an assessment of the completed system, discuss the Problems faced, limitations of the system and give future recommendations on how the system can be improved
